ADITYA KUMAR PANDEY

FULL STACK DEVELOPER

PROFILE

Full Stack Developer transitioning from business analysis with 2.5+ years of experience in process automation, documentation management, and compliance systems. Skilled in designing and developing end-to-end web applications using modern technologies. Strong problem-solving abilities, attention to detail, and experience in handling high-stakes operational systems are brought to software development. Passionate about building scalable solutions and streamlining complex workflows.

WORK EXPERIENCE

Citicorp Services Pvt Ltd, Pune   2022 - 2024

Business Analyst

- Reviewed and updated KYC forms in accordance with Citi policies and regulatory standards (BSA, OCC, AML).
- Monitored expiring KYC records and ensured documentation was proactively collected and updated.
- Escalated high-risk accounts identified during PEP/sanction screening using LexisNexis and internal tools.
- Maintained tracking systems for KYC Appendix approvals and ensured cases did not pass due thresholds.
- Collaborated with compliance and fraud teams on AML red flag reviews and SAR preparation.

PROJECTS & INITIATIVES

SuperLM - AI Tutor
- Developed a personalized AI tutor that allows users to upload books or study materials.
- Enabled interaction with an AI tutor trained on the uploaded content, allowing students to ask questions, summarize sections, and test their understanding in real-time via a chat powered by Large Language Models (LLMs).
- Utilized Next.js, TypeScript, OpenAI API, Tailwind CSS, Supabase, and GitHub for development.
- The system is live and fully functional.

Supacast - AI Podcast Generator
- Created an AI-powered podcast generator that transforms written content into natural-sounding podcasts using text-to-speech and content summarization.
- Implemented a full MERN stack architecture ensuring a seamless audio generation and playback experience.
- Technologies used include OpenAI API, MongoDB, Express.js, React.js, Node.js, and GitHub.
- The platform is live and operational.
